Barbara Scharf	D	31	5900 Wildflower Trl NE, Albuq	Support I think this is absolutely necessary. Educating youth in middle school or before will save lives and health care costs.	Yes The more money we spend on prevention, the less we will spend on health care.	Yes	My preference is that they be smoke free. Ben G. Ortiz	D	39	221 N. Cheyenne, Silver City	Support	Specific age populations should be targeted. Education will fail if adults do not enforce it. Am opposed to taxes but in this case it even more (tobacco). I would need to see where funds are allocated and audit responsibilities, results	I am totally opposed to tobacco use by anyone. How about smoking allowed restaurants	1) I would support only smokers bars and nightclubs 2) I would support separate by use bars and restaurants.	<i>Probably not a response to this question but general comments:</i> Tobacco use tax should be considered (increase). Yes The intent of the tobacco was to fund prevention & cessation efforts & to provide medical services that result from smoking. If we spent \$7.7 million where is the rest going?	Yes	If the only way to get workplaces & restaurants smokefree is to exclude bars & nightclubs then I would support such a bill knowing that sometimes change is incremental.
